NOTICES

HELPFUL HEALTH INFORMATION - Medical experts tell us that the best way to prevent colds, flu or gastrointestinal illnesses - such as a Norovirus that can be transferred easily through person-to-person contact - is to simply wash your hands thoroughly with soap and warm water after restroom breaks and again before eating anything. Symptoms of Norovirus include an upset stomach, vomiting and diarrhea. According to the United States Centers for Disease Control and Prevention, Norovirus affect 23 million Americans on land each year. In fact, the only illness that is more prevalent is the common cold. If you have (or have had in the past 48 hours) any of these symptoms, please do not go to the ship's Medical Facility. Instead, go directly to your stateroom and call Guest Services by dialing "0". The nurse on duty will then return your call for a complimentary telephone consultation or stateroom visit. Treatment may be provided on a complimentary basis.

CDC Travel Alert Level II - Practice Enhanced Precautions - Pregnant Women - In an abundance of caution, CDC recommends special precautions for pregnant women and women trying to become pregnant. Pregnant women in any trimester should consider postponing travel to the areas where Zika virus transmission is ongoing as of Feb. 2nd, 2016: Barbados, Bolivia, Brazil, Colombia, Costa Rica, Curacao, Dominican Republic, Ecuador, El Salvador, French Guiana, Guadeloupe, Guatemala, Guyana, Haiti, Honduras, Martinique, Mexico, Nicaragua, Panama, Paraguay, Puerto Rico, Saint Martin, Suriname, U.S. Virgin Islands, Venezuela, American Samoa, Samoa, Cape Verde. Pregnant women who must travel to one of these areas should talk to their doctor or other healthcare provider first and strictly follow steps to avoid mosquito bites during the trip. Women trying to become pregnant who are thinking about becoming pregnant should consult with their healthcare provider before traveling to these areas and strictly follow steps to prevent mosquito bites during the trip. Mosquito repellent is available in the ship's gift shop or medical facility.

Health Advisory - Diseases Spread by Mosquito - ZIKA virus, Chikungunya virus, Dengue fever: In order to reduce the risk of contracting any number of diseases spread by mosquito bite, including ZIKA virus (in countries where Zika virus transmission is ongoing (see <http://www.cdc.gov/travel/notices>)): Malaria, Dengue Fever (especially in the Dominican Republic, Puerto Rico, India, Mexico, and Haiti), and Chikungunya (especially in Haiti, Dominican Republic, and St. Martin (both French and Dutch sides)), travelers are urged to take precautions to avoid mosquito bites by remaining in well screened or air-conditioned areas when possible, by wearing clothing that adequately covers arms and legs, and by applying insect repellent to both skin and clothing. The most effective repellents are those containing DEET at a concentration of 20-30%. Mosquitoes carrying the ZIKA virus may bite at all times of the day or night, but there are two peak periods of biting activity - in the morning for several hours after daybreak, and in the late afternoon, for several hours before dark. Pregnant women who are travelling to one of these affected areas may contact our onboard medical center staff, and are encouraged to strictly follow steps to avoid mosquito bites during the trip (see <http://www.cdc.gov/travel/page/avoid-bug-bites>). Mosquito repellent may be purchased in the onboard gift shop or in the medical facility.

THINKING ABOUT YOUR NEXT CRUISE VACATION? DON'T LEAVE IT TO THE LAST DAY!

Have you secured yours as yet? Book today to avoid disappointment and take advantage of 50% off the second guest in each stateroom. Use that INSTANT onboard credit at the various venues around the ship or simply place it against your current onboard expenses. Visit the NextCruise Office, Centrum, Deck 5 for details.
